profile have

(name)

(+973-phone) all country numbers

(email)

(country) Bahrain Qatar Saudi UAE Kuwait Oman

(city)

(street number)

(block number)

(password change) old new

Profile

Cart

Purchase history

and can change them

When change email or phone number there is coding number send by message for email by email and for phone by phone for the new email or phone number (otp)

login

Email or number

Password

Registered

(name)

(+973-phone) all country numbers (must send code)

(email) (must send code)

(country) Bahrain Qatar Saudi UAE Kuwait Oman

(city)

(street number)

(block number)

(password)

In the cart can see the products and profile be there

And automatically profile be there and can change but email and phone number cant be change only if he went to profile and try to change it

And when open the website first show the logo

Can open the website from phone

Can choose more then one product

-

Have two option of payment (cash on delivery) (by card)

Admin side to manage all of that

In home page I can add how many boxes I want 1 or 2 etc

First paypal gateway for testing and then local gateway

I will send you similar websites

Website by coding not wordpress or anything else

-

History purchase can see his order and per order there is (in progress) (completed)

-

website name is in english (AlbannaJewellery) in Arabic(مجوهرات البنا)

-

My website and logo in arabic I want inspired by this , it called wind tower architecture bastaki house
